

# SunPork Group Testimonial

## Profile

SunPork Group is Australia's largest pork producer, owning and operating a fully integrated pork supply chain. As a family-owned business, SunPork is situated along Australia's eastern seaboard, with facilities in QLD, NSW, SA, and VIC. The company manages its own pig genetics via PIC Australia and operates forty-three farms across Australia along with six farms in New Zealand's North and South Islands.

The operations of SunPork Group are supported by three large feed mills and five biogas facilities located across its farm network. The group also runs two abattoirs, one in Kingaroy and another in Murray Bridge, SA, complemented by a value-add processing facility in Eagle Farm.

SunPork's products are distributed through various channels including major supermarkets, independent stores, butchers, food service providers, wholesalers, and export markets. This widespread distribution underscores the group's scale and integration within the industry. SunPork's partnership with Forsyths for Clean Energy Audit is part of its ongoing commitment to sustainability, focusing on improving environmental practices across all areas of the business. This initiative reflects SunPork's dedication to enhancing sustainability throughout its operations.

## What were SunPork's needs/ requirements when looking for an auditor?

SunPork required an auditing partner with experience and understanding of the industry to support the review of crediting applications and assist with our Emission Reduction Fund (ERF) projects across our biogas network.

## Why did you choose Forsyths?

We chose Forsyths because they possess a deep understanding of the agriculture sector, particularly piggeries. Their effective communication, prompt turnaround times, and expertise in Clean Energy Regulator methodologies were key factors in our decision. Additionally, their competitive pricing and regional presence in Armidale align well with our needs, providing a sense of local partnership and support.

## Did the Forsyths team meet your needs and how?

The Forsyths team consistently meets our needs by providing sound advice, efficient turnaround times, and excellent communication about the status of our projects.

## Would you choose to work with Forsyths in the Future?

Absolutely. Working with the Forsyths team has been a really positive experience. They're not only highly professional, they're also very experienced and knowledgeable when it comes to compliance and Clean Energy Audits. It's made a big difference for us.
